

The Experts in Azide Chemistry

VALMESTA is a Swiss company specialising in Azide Chemistry. The company is a joint-venture, combining the experience of hazardous chemistry experts **Valsynthese** and the know-how of technology company **AETGROUP**.

We offer quality and flexibility in the following areas:

- Custom Synthesis for Azide Chemistry and Hazardous Reactions.
- Generics: Intermediates and APIs.
- Tetrazole, -sartans: building blocks and APIs (under development)

Development and Production:

- Laboratories, pilot plant, multipurpose cGMP plant 50m³ for work-up.
- Generic Dossiers and DMF Submission.

VALMESTA utilises ISO 9001 and cGMP certified plants.
